For the next FMC meeting, can you add under my report "Discussion of service vendor requirements".

We need to implement a policy that any new service vendor to be paid by check submit paperwork to be set up before any services are performed to verify they are able to legally work in the US.

Thanks!

Finance had to calculate how much the employee owed the county, create a W-2c for the employee, and submit a 941X to the IRS. The employee repaid the amount owed.

I wanted to let you both know that my crew picked up three loads of rip rap during the time we were not supposed to be purchasing material because the rock bid had expired.

This was my oversight, and I take full responsibility for it.

We have discussed this internally, and moving forward, if we encounter this situation again, we will not only communicate the issue but also follow up with clear dates so the crews know exactly when they can resume picking up loads from the supplier's quarry.

I appreciate your understanding, and we will make sure this does not happen again.
